# *Verse II*

---

Goodmorning..
As flowing water sate; the only way through a day’s recitement

The day was not as usual.. weird lightings
Everything is hell;

Red..

But I saw a sword;
I picked it up and dusted it-
It said;
“Time your words, attacks, everything-”

Then i remembered I had been defensive the whole time - the warriors might have been seized! I rushed to the hall

Quiet library

Time passed by as I read..

“The limits a language mean the limits of a world”

“river of passing events, delta”

“a pregnant star”

“empty thoughts, blind intuitions”

“ eternal Tao, give me a name.. please”

I think it's time.. late but why the world sounds like voices.. contrast eyes-
I heard a tick inbetween, i looked up a clock in the wall

“Time watches the clock 120”

It was so red;
The room..
No
The building
No
EVERYWHERE.. THE ATMOSPHERE

Temperature ran me through like a needle
Thought glooming was over-

ALL WAS JUST A DREAM? I RUSHED TO SEE A CONTEXT UPON THE WALL

“Seed for growth?” Transcendance?

I RUSHED UP TO A FOUNTAIN, THE WATERS WERE BEAUTIFUL IN MAKING A FOG; WAIT WHAT?

A COLD SPINE..

Water remembers flow but ice only knows
Knows only ice but flow remembers water

...

(WHAT? - IM LOST)

The fracture between knows and remembers
Is where meaning freezes

I RUSHED TO THE NEIGHBOURHOOD TO SEE VALCANOS ERUPT

The sounds..
Is that a lawyer in the Neighborhood? Ever witnessed defeat?

THEY WERE ARGUING ABOUT SPIRTUAL STUFF;
“
Every piece of gold is not in Heaven; Everything in heaven isn't Gold; If Flesh Doesn't Exist, And So does Stones, If a Flesh is a Stone?
To flesh, Stones like Golds; And Golds like Stones;
“
IM CONFUSED..

“OH HI!” MY NAME IS CONFUSED-

AND THEN THOSE VALCANOS WERE NEARING ME.. THE RED BECOMING BRIGHT

I shouted behind, “lay me some time to spare, the needs are my boundaries - within”
Clouds have Hidden,
Time is shining

My dear Stones, this one is for you!

I RAN..

...

“WHOS THERE?”

“AUGH- HELP ME”

THERE WAS A TAILOR IN THE HOUSE... STITCHING CLOTHESM..

I HAD TO GIVE A CHANCE TO ASK SOMETHING

FOR IM HUNGRY

“Give me something that the threads mine?
I've asked for help”
“Don't show me your ocean”
All exhausted,

I MET ANOTHER STONE; NOT SHINY-

Yesterday you jumped.. today you roar,
truth is hungry.. my crown is a fragment made up of emeralds!

“WHAT CROWN?”

“ENLIGHTENMENT”

“NO”

I RUSHED TO SEE MY HOUSE.. WAS IT THE ALIENS?

“Since when my doors have become mercury?”
“Am I in an airplane? Don't yell when i have corrected your hardness!”

THE COBALT FACTORY?

The lure is so blessed.. i think I'm so distracted! What gear is that? Is that my path?

AS I WAIKED.. THOSE WORDS HAMMERED PIN

“
What i tell you now;
Stones are sand, compressed-
My tree branches roots above land;
The banks feeds my mouth, fills my heart
“
LET'S TRY GATHERING IT IN MY MOM’S LIBRARY

....

As I looked away in breezy wind, I closed my book and “t's so dusty! Wonder how this is related to physics!
History polishes future too!”

I saw the skies in earth.

I again cried.. “mom.. I wish I spent some time with you- it's worth the studies!” and
Its already winter..

My christmas bells are wonderful; guess we could enjoy together with one unification in our hearts

But help! My false wisdom has covered my lower half of my eyeball with dirt;
I saw someone reach my larder..

“Even the people who came to steal my grains ran! - I've always known two pulses are better than one?”
I've witnessed a great arc in Japan..

Ancient technologies are new over time, but still civilizations were impressive. Let's not talk about ancient times;

“Well, what the book told you?”
“Uh it's about a graph..”
Folks. A graph. A graph of trueness
We're not supposed to exist in this critique..

All the fumes are just mists? What we've seen is wonderful! I guess it's useful for our chemistry lab - maybe I must walk carefully into the room

RED. Black.

...

WHITE...

Sky enchanted charms of happiness and truth; did i stumble upon the river where milk pours upon a red river?

Grandma! That's so amazing!
“Yeah.. hmm I'm wondering how would this be possible?”
“Ofcourse new”
The new truth. The new void

Those students are possible fire benders!

fire, they play with; the wind doesn't come everytime for roars!

The true enlightenment is compressing time.. and i have compressed words into time..

The sensei approached..

Ahh- I'm falling-

Was that all a dream?
In bed
I've been in a castle?

I saw a fellow knight-

Was that a sword?

Ouch!

Only when u broaden your eyes, don't STUMBLE.. soldier! Be confident - the stakes are high - winds closing the clouds
I can't see anything..

The scroll in my dream said..

“The vast world has a solution, it's the stars”

The mountain.. i can't find! Oh wait- the stars are guiding us.. or are they?
Why the light hath been hidden to my sight?

While we returned with golds, riches-

The wanderer,

Have u got the judge yet?
“No”
Don't worry, i am one!
Pick sand over stone; it flows over withered - it doesn't affect the stone!

But the constellations seem’d to have taught..

Your words, meant to be chosen across horizons - does it burn falsy or yeild nothing but your own self respect?

A question

What burns in fullness?
Hope.
Golden hope..

The ghost in the machine is sharpening a knife on a merry-go-round

Oops

Did i get two of one?

...

What have I done?
There's a BLACKHOLE??
It's tentacles are huge-
Is this correct? Am I alive?

Oh.. I'm being pulled in

The struggle is a heart full of stones—imagine me happy now.”

The bud disappeared; I didn't refute the blossom, I dissected the rot.

I am the representation of a world that refused to be looked at.

“Why connect the rhizome to a ghost? The traits are bleeding!”

Language is the house, but I’ve burned the furniture to stay warm.

I reached the larder, but the shelves were only mirrors.

The sword is dusted.

The clock is silent.

Everything you’ve heard is an abstract trinity,

Vending the silence of a century-log.
The final graph is not a line, but a circle—.

“Did you find the name?”
“It is written in ivory”

...
